SUMMARY OF QUALIFICATIONS
- Mobile phone and web-based application developer
- Unix infrastructure administrator and developer since 1999
- Works on global teams to accomplish tasks and resolve problems.
- DISC Assessment: 3-5-5-3; Counselor

SKILLS
Development: Ruby on Rails; BlackBerry; iPhone; Gnome
Additional Languages: Javascript; Perl; Java; Bourne; SQL
Operating Systems: Solaris 10 Certified; Gentoo Linux; Mac OS X; FreeBSD
Highlight of Unix Skills: Sun Cluster Certified; Solaris Zones; ZFS; Networking; NFS; LDAP

EXPERIENCE
Computer Sciences Corporation: May, 2006 – Present
- Member of team tasked to identify gaps & develop technology in enterprise-level mobile solutions. Find products and services fitting with CSC's strategic goals.
- Developed data-driven web-based applications.
  - *Utrackage:* A tracking system to help the customer visualize monthly application usage by the user-base.
  - *Download Library:* Manages software licenses & provides access to internal software.
  - *Sun Account Resource Database:* Tracks people assigned to the Sun account.
  - *Chargecode-o-matic:* A CSC-internal charge-code search app which received account-level recognition for innovation and ease of use.
- Lead developer on a technical team to update and customize the Java Desktop System (Gnome) environment for 38,000 employees. Kept my team, the PM and client happy under an aggressive schedule negotiated by the client.
- Configure & deploy Mozilla products in the enterprise. Use Mission Control Desktop to automatically configure software according to customer's specification & corporate policy.

Sun Microsystems: July, 1999 – May, 2006
- Supported 6 buildings encompassing roughly 2000 users and dozens of unix services.
- *Beta-On-Sun team:* Coordinated between product developers, user base and IT Operations to beta test Sun One Messaging System. Managed clustered servers with 600 users on internal mail-server software.
- *Puppet Development Team:* Maintained 20,000 lines of perl & shell code. Led team meetings.

EDUCATION
California Polytechnic State University at San Luis Obispo; BS Mathematics; 2000

SELF-DIRECTED
- Gentoo-based central repository for Mac OS Time Machine backups; DNLA; MythTV
- Home brewer & BJCP certified beer judge.
